

Streamline Your Deposit Processing with *Centier Express Deposit*

With the advent of Check 21, processing checks no longer has to be routine. Centier now offers a remote deposit capture solution designed to help you more conveniently make deposits and receive funds faster.

With *Express Deposit*, you can exchange conventional, manual check deposit processes for an automated deposit solution created to suit your specific needs. Regardless of your size or location, *Express Deposit* allows you to scan any type of check at your business location and electronically deposit it into any one of your Centier accounts.

Do you have large dollar check deposits?

Great.

Could you benefit from later deposit deadlines?

Perfect.

Do you have multiple locations across a large geographic area?

Ideal.

Using a small desktop scanner, you can capture front and back images of your checks. Next, *Express Deposit* balances and verifies check deposit information to ensure that the scanned amount matches the expected deposit amount. Then, the deposit and check images are transmitted electronically to Centier for clearing. Sounds easy? That's because it is.

To make *Express Deposit* a key component of your business process, contact Centier today!

What can *Express Deposit* do for you?

- Enable your corporate office to see deposits being submitted from your multiple store locations.
- More processing time combined with extended deposit cutoff times can provide your business with faster funds availability.
- Help your business realize additional working capital.
- Consolidate banking relationships and reduce associated reconciliation work and costs. With *Express Deposit*, no geographic "footprints" exist for banking with Centier.
- Assist you in identifying return items faster, reducing fraud risk.
- Reduce transportation expenses as most deposits can be made without ever leaving the office.
- Allow you to see deposits online using our electronic image archive.
