Worksheet

Paying Down Debt

Instructions:

- List all of your debt details and review your overall debt position.
- Determine which debt you want to focus on first. Give that a Priority 1 and go down from there.
- Focus on Debt Priority #1 first by adding all extra money towards this debt monthly, until it is paid off.
- Every month, re-write your debts with updated balances and utilization % and re-evaluate your priorities, if needed.
- Once a debt is paid down to 0, it can be removed from this list.
- Use this form until all debt is paid off.
